

Companion Animals

Our small-animal practice emphasizes preventative medicine and wellness programs specifically designed for your pet's age and condition including:

- Puppy and kitten programs
- Vaccinations
- Wellness exams
- Geriatric health screenings
- Nutritional counseling
- Chiropractic evaluation and treatment

Equine

Greener Pastures is committed to preventing disease and common equine health problems by

offering comprehensive vaccination programs and services including:

- Dentistry and power floating
- Reproductive management support, breeding consultation, artificial insemination, pregnancy exams and prenatal care
- Lameness evaluation and joint injections
- A modern, full-service hospital and large-animal surgery area for more complex cases

We offer chiropractic care for the equine athlete.

Livestock

In addition to traditional medical and surgical care, the Dairy Division of Greener Pastures continues to adapt to the changing needs of the dairy producer.

Our objective: To improve herd health, productivity and profitability. Greener Pastures provides an on-site team of advisors to offer:

- Reproductive management
- Herd and financial records analysis
- Feed analysis & ration formulation
- Milking systems analysis and employee training
- Vaccination program

Greener

VETERINARY SERVICE

Exceptional veterinary medicine for large and small animals in a compassionate and caring environment

Established in 1996, Greener Pastures is a full-service veterinary practice serving the needs of large- and small-animal clients. Our new, 7,500 square foot, state-of-the-art facility opened in 2003 increasing our ability to serve the small animal community and to provide a broader array of services to our equine and dairy clients.

Our team shares one common goal – **Exceptional veterinary medicine in a compassionate and caring environment.**

Greener Pastures understands that animals touch our lives and, in some cases, provide our livelihood. In every case, you can entrust with us your animal's care and well being.

We invite you to stop by to see our hospital to learn more about Greener Pastures. We hope you will consider us when you require veterinary services for any of your animals, Great and Small.

VETERINARIANS ON STAFF:

- Christy Rynd, VMDUniversity of Pennsylvania, 2002

And Associates

Examination & Diagnostics

Our in-house laboratory facilities provide for fast and accurate diagnosis of many medical conditions allowing for prompt treatment. Some of our diagnostic capabilities

include blood, urine and fecal testing; portable and on-site radiography and electrocardiogram (ECG). Additionally, we have ultrasound and endoscopic capabilities to aid in diagnosis.

Treatment Areas Large & Small

Central to our hospital are the small and large animal treatment facilities. Each area is specifically designed to provide a comfortable, safe and efficient environment to treat your animal.

Surgery Suite

Our surgical suite is equipped to handle a wide range of surgical procedures from routine spays and neuters to more advanced soft tissue and orthopedic procedures. Anesthetic agents are chosen on an individual basis and your pet is closely monitored by a certified veterinary technician using cardiac and oxygen monitors through recovery. Pre- and post-operative pain management is included and mandatory.

Recently, we expanded our surgery suite to include LASER surgery. Laser surgery provides many wonderful benefits to our surgical patients such as less bleeding and less pain which leads to a quicker recovery time.

Physical Rehabilitation

Greener Pastures also offers physical rehabilitation to our canine patients. Our on-staff Certified Canine Rehabilitation Practitioner can work with your favorite canine pal to help recover from all kinds of injuries, surgeries, weight issues and other ailments.

Pharmacy

Pain management, prescription flea medications, heartworm preventatives and pharmaceuticals to treat various conditions are all part of modern veterinary medicine. Greener Pastures

maintains a fully-stocked pharmacy to ensure that the proper medications are available to treat your pet while in the hospital, to be sent home with your pet and when you stop in for refills.

In order to service our clients most efficiently, we are pleased to make available an online pharmacy that allows you to order your animal's medications and have them delivered directly to your door.

Retail Store

Good nutrition is an integral part of keeping your pet happy and healthy. Our competitively priced food lines include Eukanuba® and Hill's® Prescription Diet® to meet all of your pet's special dietary requirements.

24/7 Emergency On-Call Service

Illness and accidents do not respect the clock or calendar. Greener Pastures has doctors on call 24/7 to meet your veterinary emergency needs.
